

DIMENSIONS
120"x60"x15"

EASY INSTALLATION

The modular walkways are designed so that one person can install them with the use of a forklift and a 15/16" socket wrench.

STACKABLE

Sections stack on top of one another for reduced storage footprint and shipping costs.

MODULAR

The above surface float is designed to add or subtract buoyancy modules based on your specific project requirements. This allows you to have a customized solution at a cost effective price point.

OTHER GREAT FEATURES:

- Tough, crack resistant, UV inhibiting polymer resin ensures a long life
- Slip resistant surface
- Optional handrails and grating for a safe walking surface in ice
- Anchor points
- Optional dock cleats to tie up a boat
- 20 stainless connection points molded into the float surface

TECH SPECS:

- **Buoyancy (Per Platform, 1 module):** 2,916lbs / 1,323kg at full submersion
- **Weight:** 258lbs / 117kg without handrails
- **Dimensions** 120x60x15" per module
- **Colors Available** Tan or orange are standard
