

DIMENSIONS
120"x120"x15"

*FLOAT MODULES CAN
BE DOUBLE STACKED
FOR ADDITIONAL
BUOYANCY*

EASY INSTALLATION

The modular platforms are designed so that one person can install them with the use of a forklift and a wrench or an impact gun

STACKABLE

Sections stack on top of one another for reduced storage footprint and shipping costs.

MODULAR

The above surface float is designed to add or subtract buoyancy modules based on your specific project requirements. This allows you to have a customized solution at a cost effective pricepoint

OTHER GREAT FEATURES:

- Tough, crack resistant, UV inhibiting polymer resin ensures a long life
- Slip resistant surface
- Optional handrails and grating for a safe walking surface in ice
- Anchor points
- Optional dock cleats to tie up a boat
- 20 stainless connection points molded into the float surface

TECH SPECS:

- **Buoyancy (Per Platform, 2 modules):** 5,832lbs / 2,645kg at full submersion
- **Weight:** 516lbs / 235kg without handrails
- **Dimensions** 120x120x15" per Platform
- **Colors Available** Tan or orange are standard; custom colors by request
